

NCI 2020

Malmö, Sweden
April 21-22, 2020

Nordic Cardiac Imaging (NCI) is organising meetings with lectures from Nordic experts, international opinion leaders and specialists in the different cardiac imaging modalities.

The purpose is to give state of the art lectures on the latest advances, evidence based application of imaging in daily clinical practice, and interactive panel discussions about specific clinical cases. Scientific posters will also be presented. Abstract submission is open now.

NCI2020 will be a preconference to the Swedish Cardiovascular Spring meeting.

Most welcome to Malmö 21-22 April 2020!
